PROFILE

Software Engineer with a demonstrated history of working in various domains. Excellent front-end development skills in HTML, CSS, JavaScript, React, and SQL.

SKILLS

Web Development: Sql

Web Development: HTML, Css, Tailwind css, Bootstrap, javaScript, React.js

Server: Node.js, Vite and Create React App

Cloud Services: Git & GitHub

Tools: Postman, V-S Code, Postgresql

PROJECTS

Ecommerce-website | Mern-stack

Developed a full-stack eCommerce website for an online fashion store, enabling users to browse, search, and purchase fashion products including clothing and accessories. .

The platform provides user-friendly navigation, product filtering, cart management, secure authentication, and order tracking features.

Student Management System | React

I developed a Student Management System using React to practice and demonstrate my ability to implement complete CRUD operations.

It typically consists of tasks with features that allow users to add, edit, view, and remove items.

do list can be as basic or as advanced as needed, ranging from a simple checklist to a fully-featured task manager.

Ra zorpay uI Clone | Html,Tailwind css,javascript

Developed a Razorpay UI clone using HTML, CSS, and Javascript, accurately replicating the modern and Intuitive design of the Rozorpay interface.

I.mplemented dynamic features like interactive form validations, responsive layouts and hover.

Optimized for responsiveness by using modern CSS techniques and media queries, achieving functionality such as seamless functionality across various devices and screen sizes.
